Proof of the child's identity and age may include a certified copy of the child's birth certificate, birth registration card, notification of birth (hospital, physician, midwife record), passport, copy of the placement agreement or other proof of the child's identity from a child placing agency (foster care and adoption agencies), record from a public school in Virginia, certification by a principal or his designee of a public school in the U.S. that a certified copy of the child's birth record was previously presented or copy of the entrustment agreement conferring temporary legal custody of a child to an independent foster parent. Viewing the child's proof of identity is not necessary when the child attends a public school in Virginia and center assumes responsibility for the child directly from the school (i.e., after school) or the center transfers responsibility of the child directly to the school (i.e., before school). While programs are not required to keep the proof of the child's identity, documentation of viewing this information must be maintained for each child.
